a) An assignment of a slip is restricted to Shareholders having qualified boats on Corporate property requiring current registration and also verifying boat ownership at all times. In the case of watercraft on Corporate property not requiring registration other proof of ownership may be accepted but only a temporary slip assignment will be made.

b) Any Shareholder of the Association can make a written request or e-mail to the Dock Coordinator for a suitable dock slip. These requests will be placed on the boat slip waiting

list by the order received. The list will be posted in the clubhouse, the website and is also available from the Dock Coordinator.

The request must be acknowledged by the Dock Coordinator in writing or e-mail within five (5) business days. The shareholder is responsible to follow-up confirmation

acknowledgment.

c) Only one request per shareholder will be allowed on file at any one time. No multiple requests will be allowed.

d) Requests cannot be for a specific slip. Requests can be for Lagoon changes closer to or further from the river. When a shareholder's name comes up, they can accept the available slip or decline. Declining means your request and its seniority are canceled and the next dated request gets the option of accepting the available slip. Declining shareholder may then reapply and their request will be placed at the end of the dock request list according to the date received.

e) All slip assignments are made by the Dock Coordinator. Any required clarifications/disagreements should be brought to the Dock Coordinator's attention and will be brought to the Board of Directors for resolution.

The Shareholder shall provide the Dock Coordinator with proper documents for the contemplated vessel regarding its suitability for the available docking.

A non-refundable check for two (2) months worth of fees will be due upon notification of the request. A sixty (60) day conditional hold begins on the date of notification by the Dock Coordinator of an available slip space.

If the sixty (60) day period expires during the off-season, the shareholder will have thirty (30) additional days on their return or from January 1, whichever is earlier. A manual measure of the vessel will be done by the Dock Coordinator upon arrival.

NOTE: Off-season is defined as being between May 1 through December 1.

g) Shareholders may have only one assigned slip. The Dock Coordinator will assign surplus slip space which may be used for temporary slip assignments. The temporary slip space must be vacated upon written request from the Dock Coordinator.

In any case there is a maximum of two slips per Shareholder. No more than two registered boats are allowed on Corporate property at any one time.

h) Whenever an assigned slip space is not in use for any reason, it may be temporarily assigned by the Dock Coordinator to a qualified vessel. The assigned slip is restricted to

qualified boats on Corporate property. In case of watercraft not requiring registration, proof of ownership is required and only temporary slip assignments will be made for such watercraft.

i) Any Shareholder may retain their assigned slip space for sixty (60) days without a registered boat provided they acquire a registered, qualified boat by the end of that time period. The Shareholder must alert the Dock Coordinator of this sixty (60) day intention.
